Thank you.

See the attached factsheets. The Wetland Regulatory Authority describes EPA's basic authority, and the 404(q) one has a section on ARNI. I haven't found a good handout on 401 certification but I can mention at the meeting that under 401, state and downstream tribal water quality standards will need to be met.

We could also include a link to more information.

Please see below.

I will also include the address in the forthcoming agenda.

I gather they only have a single conference room, and we have it reserved!
